

In 1984, NYU alum Bernhard Goetz shot four young black men on the subway who tried to rob him. He was heralded as the “Subway Vigilante” and helped fuel our racially charged culture wars.

In 1989, NYU alum Spike Lee made the film *Do the Right Thing*, which told us just how racially divided and tribalized we are.

In 2020, NYU alum Devina Singh made headlines for spitting in a cop’s face during the George Floyd protests.

NYU alums Sean Hannity and Rudy Giuliani tell us to be angry and divided, and that Democrats are evil.

NYU alums Chelsea Clinton and Whoopi Goldberg tell us to be angry and divided, and that Republicans are evil.

NYU alum Nancy Grace tells us the American public is rotten, violent, and morally decayed.

Can you spot the common theme? These are all instances of **criminal propaganda** designed to divide the public against themselves so we don’t realize that our government and media have been taken over by history’s worst financial criminals whose only goals are to divide, deceive, and bleed us dry.²

More Notable Alums:

Lawyer **David Boies** defended Al Gore vs. George W. Bush (so we wouldn’t realize Gore was letting Bush win because they’re on the same team); Theranos (so we wouldn’t realize their investors were in on it, and that the company was supposed to collapse so they could launder money); and Jeffrey Epstein victims (so we wouldn’t learn any of those secrets about Epstein).

Producer **James L. Brooks** made *The Simpsons* to tell us we have no choice but to slave away for evil billionaires, and that the American Dream is dead because we’re too oafish, divided, and decayed, and not because criminals have been stealing our futures.⁵

What should you do with this info?

Investigate. If you look into high-tech NYU start-ups, you’ll find evidence of Ponzi schemes. If you look into NYU’s big donors, you’ll find ties to crypto. If you look into dead students, you’ll find evidence of murders and cover-ups.

Protest. Work together, demand answers, and expose this corruption.

Share. If you’re not sure what to do with the world’s biggest secrets, give them to other people.

NYU is a Mob Front

A brief guide to New York University’s most criminal secrets

- ❖ Political Revenge Killings
- ❖ Blackmail Rings
- ❖ Ponzi Schemes
- ❖ Money Laundering
- ❖ Criminal Propaganda

All of these wild claims have been proven.

Do you know why NYU has so many dead students? It isn't the Bobst Curse - it's because **they've got a murder problem**¹. Here are some notable cases:

June 2004: Assistant District Attorney David Lat started a gossip blog about the judicial branch called "Underneath Their Robes." Shortly afterwards, his sister, NYU student **Charlene Lat**, "fell" to her death from his balcony while he was at work. This was a hit job by NYU and their allies in our criminal government.

August 2007: Tumi McCallum was the daughter of two NYU professors. She was brutally gang raped and bludgeoned to death, but all those facts disappeared from her case, and her boyfriend was charged in the killing. This was a cover-up by incredibly powerful people.

May 2023: NYU Business students **Franco Medina Angulo** and **Sergio Ruiz** were shot and killed on vacation in Puerto Rico with other NYU students. They were allegedly caught in a crossfire and the killers were never caught. This reeks of a cover-up.

Those Criminal Tandon!

NYU Megadonors Ranjan and Chandrika Tandon are massive financial criminals.³

Ranjan's company Libra Advisors, LLC has been investing in fake-science and bio-med Ponzi schemes for decades. The fantastical start-ups promise revolutionary breakthroughs, but it's all smoke and mirrors: the Ponzi collapses while the Tandon make billions in stolen cash.

Chandrika Tandon helped NYU President John Sexton create the NYU President's Global Council, an advisory board for NYU's international interests. Do you know why NYU has established unaccredited campuses all around the world? That's for **international money laundering**.

And a whole lot of it is in service of **cryptocurrency**, our first planetary, decentralized, multi-trillion-dollar Ponzi scheme that will soon shatter the world economy when the Ponzi goes insolvent.

Other notable President's Council Board Members:

- **Matthew Bronfman:** Ties to NXIVM sex trafficking cult and Lehman Brothers (which was supposed to collapse because it was a Ponzi bank!)
- **Miguel R. Forbes:** Did you know Forbes Magazine is owned by the crypto industry? It's like if the mafia had a magazine

Why did notorious criminal financier Jeffrey Epstein attend NYU in 1971?

Because Epstein was an up-and-coming blackmail artist who knew that **NYU has a blackmail ring**.

He was recognized for his blackmail talents at NYU, then he became a teen sex blackmail specialist for the CIA.

When did NYU get a blackmail ring? They probably inherited it from mobster Lucky Luciano, who ran his headquarters down the street and cut a deal with the US government in 1945.

Here's the rest of the Jeffrey Epstein story: He pivoted from blackmail to fake-science Ponzi schemes like his 'Program for Evolutionary Dynamics' at Harvard, which is just as criminal as NYU (and Columbia, and Stanford, and Yale, and Penn, and...)

Epstein co-founded the Clinton Global Initiative with Bill Clinton, which is exactly like the NYU President's Global Council: international money laundering in service of Ponzi schemes and other organized crime.⁴
